# YOUR WORLD THE NEW OFFICE

Innovative furniture with beautiful shape that inspires,  
combined with function that do not restrict. Furniture that  
will contribute to a positive work environment.

There, we feel good, we become creative and effective.

There we can perform at our best.

Day after day.

# EASE

In a rapidly changing world, our offices are being transformed. Many companies are transitioning to activity based offices, with a focus on space for collaborations and meetings.

Despite this evolution, the need for individual concentration, privacy and spaciousness remains just as important. We identified a need for a functional and flexible partitioning system that can be used to design workspaces that combine accessibility and spaciousness. It creates a pleasant sound environment and an aesthetic appeal.

EASE is a unique new line of lightweight, flexible display solutions suitable for every area of the room.

EASE simply creates functional spaces – tailored to your needs.

# NEAT family

NEAT is the new range for modern workstations. A family that has added a series of desks hallmarked by the same streamlined and airy design as Neat storage. The two-piece canvas consists of a fixed-technology panel and front sliding component for accessing the cable tray. The technology panel is a decorative and accessible solution for your electrical and network sockets needs, and serves as an integral element of the table's design.

The table series features a variety of sizes and functions catered to fit most of the requirements and needs of a modern workplace. The material components can be combined in any number of ways, allowing you to put a personal touch on the interior.

NEAT – furniture with a streamlined and airy signature for the modern office. Offering dynamic solutions and catering to all workplace functions.
